

Call for Nominations

2023 The AIC Gold Medal

Nominations are now being accepted for the 2023 The American Institute of Chemists Gold Medal Award. First presented by the AIC in 1926, the Gold Medal is the AIC's highest award. It recognizes service to the science of chemistry and to the profession of chemistry or chemical engineering in the United States. Previous winners include Nobel laureates Glenn T. Seaborg and Herbert C. Brown, as well as other renowned researchers and scientists representing the many facets of the world of chemistry. Recent medalists include Stephen Lippard, E. Gerald Meyer, Henry Schaefer, Peter Stang, and Brian M. Hoffman.

Nominations should consist of a nominating letter with the individual's curriculum vitae plus two letters of support. All nomination materials are due by **October 22, 2022**, and should be mailed to:

Ms. Deborah Cate
Attn: The AIC Gold Medal Nomination
The American Institute of Chemists
315 Chestnut Street
Philadelphia, PA 19106

OR you may email completed nomination materials to aicoffice@theaic.org.

It is the responsibility of the person making the nomination to collect and submit all the required nomination materials – letter of nomination, two letters of support and the nominee's CV. No late nominations will be accepted.

The award winner is expected to deliver a formal lecture on a topic relevant to the basis for winning the award at the award ceremony during Heritage Day in May 2023.

The American Institute of Chemists: Founded in 1923, The AIC advances the chemical sciences by establishing high professional standards of practice and emphasizing the professional, ethical, economic, and social status of its members for the benefit of society as a whole. The AIC engages in a broad range of programs for professional enhancement through the prestigious Fellow membership category, an awards program, certification programs, publication of the refereed journal *The Chemist*, and meetings.
