

Call for Nominations

2014 The AIC Gold Medal

Nominations are now being accepted for the 2014 The American Institute of Chemists Gold Medal Award. First presented by the AIC in 1926, the Gold Medal is the AIC's highest award. It recognizes service to the science of chemistry and to the profession of chemistry or chemical engineering in the United States. Previous winners include Nobel laureates Glenn T. Seaborg and Herbert C. Brown, as well as other renowned researchers and scientists representing the many facets of the world of chemistry. Recent medalists include Elizabeth Blackburn, George Whitesides, Roald Hoffman, and Oliver Smithies.

Nominations should consist of a nominating letter with the individual's curriculum vita plus two letters of support. All nomination materials are due by **October 4, 2013**, and should be mailed to

Ms. Sarah Reisert
Attn: The AIC Gold Medal Nomination
Chemical Heritage Foundation
315 Chestnut Street
Philadelphia, PA 19106

OR you may email completed nomination materials to SReisert@chemheritage.org

It is the responsibility of the person making the nomination to collect and submit all the required nomination materials – letter of nomination, two letters of support and the nominees CV. No late nominations will be accepted.

The award winner is expected to deliver a formal lecture on a topic relevant to the basis for winning the award at the award ceremony during the Chemical Heritage Day in May 2014.

The American Institute of Chemists: Founded in 1923, The AIC advances the chemical sciences by establishing high professional standards of practice and emphasizing the professional, ethical, economic, and social status of its members for the benefit of society as a whole. The AIC engages in a broad range of programs for professional enhancement through the prestigious Fellow membership category, an awards program, certification programs, and meetings.
