AIC Guidelines for References in Submitted Papers

References should be cited as superscript numbers at the appropriate place in the manuscript. The reference numbers should be cited in the correct order through the text (including those in tables and figure captions, numbered according to where the table or figure is designated to appear). The references themselves are given at the end of the final printed text along with any Notes. Journal abbreviations should be consistent with those presented in Chemical Abstracts Service Source Index (CASSI) (http://www.cas.org) guide available at most academic libraries.

Journals
The general format for citations should be in the order: author(s), journal, year, volume, page. Page number ranges are preferred over single values, but either format is acceptable. Where page numbers are not yet known, articles may be cited by DOI (Digital Object Identifier).

For example:

Books
For example:

Patents
Patents should be indicated in the following form:

Reports and bulletins, etc.
For example:

Material presented at meetings
For example:

Theses
For example:

Reference to unpublished material
For material presented at a meeting, congress or before a Society, etc., but not published, the following form should be used:

For material accepted for publication, but not yet published, the following form should be used:
Smith AB. Anal. Chem., in press

For material submitted for publication but not yet accepted the following form should be used:

For personal communications the following should be used:
Smith AB, personal communication.

If material is to be published but has not yet been submitted the following form should be used:
Smith AB, unpublished work.

Reference to unpublished work should not be made without the permission of those by whom the work was performed.

Names

The names and initials of all authors should always be given in the reference and must not be replaced by the phrase et al. This does not preclude one from referring to them by the first author, et al in the text.

Additional Comments

Any questions should be directed to the Editors at the AIC National Office:

Editor – The Chemist
The American Institute of Chemists, Inc.
